

KONICA MINOLTA

CUSTOMIZE YOUR MFP & TRANSFORM YOUR WORKFLOW

Now it's easier than ever to optimize your powerful Konica Minolta multifunction product (MFP). With the MFP user interface (UI) Design Tool from Konica Minolta MarketPlace, the award-winning platform for apps and customization features that can be used directly at the MFP. Just as all of the departments in your business aren't the same, your MFPs don't have to be either. With smart customization options, you can tailor your control panel UI to meet your company's needs, increase productivity and reduce keystrokes.

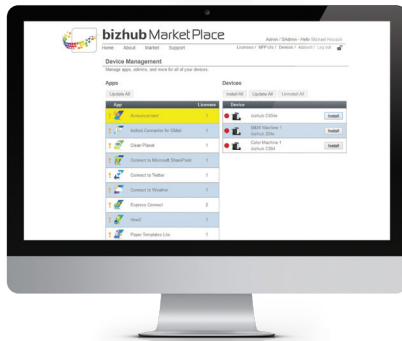

It's all at your fingertips. The drag-and-drop UI customization tool is simple to use. And you can easily customize your UI and manage apps on your entire fleet of MFPs — from one convenient, centralized location.

Go beyond business as usual. Customize your MFP with the features you need, brand it with your corporate identity, and streamline the control panel to highlight your most-used functions. You can even connect to third-party apps for easy access to the tools you depend on. Do all this—and more—with your Konica Minolta MFP and MarketPlace.

YOUR WORK IS ONE OF A KIND NOW YOUR MFP CAN BE TOO

What do you get when you add customization features to Konica Minolta's streamlined control panel? You get a boost in productivity and a better MFP experience. How? By allowing you to:

CUSTOMIZE YOUR EXPERIENCE

The MarketPlace MFP UI Design Tool gives you a simple, drag-and-drop way to customize your touchscreen panels and interface to match the way you work. And for environments that need more specialized support, our professional services team can provide full end-to-end installation.

- Change the look and functionality of your screen
- Add or delete functions, so your people have fast, easy access to the commands they really need
- Design the touchscreen to reflect your corporate branding by using your company's logo, colors, images or text — the elements that make your business stand out from the crowd

CONTROL FROM ONE PLACE

Manage MFP operations from one centralized place:

- Install a custom user interface and other MarketPlace apps across an entire fleet of MFPs with just a simple click
- Make apps accessible from the main screen, so your people won't have to drill down to bring up the app they need
- Easily enable your customized user interface to appear automatically when the MFP is first powered on

LEVERAGE FOR INCREASED PRODUCTIVITY

Take advantage of the benefits that come with a customized and centralized MFP:

- Your company's brand will be visible throughout the workplace
- Your touchscreen will be as personal and easy to use as a smartphone
- You'll have fast access to the apps that simplify workflow and speed productivity
- Your customized, intuitive MFP screens will reduce the learning curve of new hires or temporary employees — because they can get the job done with fewer clicks
